Worker Availability/Order Assignment

Workflow comes from
Stock Checking/
Unit Reservation

4

Workers Table

Query DB for
available workers

Unknown Workflow
begins here

5

no ← **Decision**

Are there available
workers?

yes ↓

Orders Table

Workers Table

Associate orderId to
Available Worker
and Pod containing
requested units.

Available Workers are
those with no tasking.
Now they should be
tasked and taken out
of the available pool.

Pods Table

6

Pod Dispatch
Workflow
